

COMMERCIAL UAV EXPO AMERICAS

October 28-30, 2019 | Westgate Resort & Casino | Las Vegas, Nevada

University Pavilion Application

Much of the innovation occurring in UAV/UAS is taking place at leading research and technical universities around the world. Universities specializing in UAV/UAS research are invited to exhibit in the University Pavilion at Commercial UAV Expo Americas.

Participating in the University Pavilion allows you to share your latest research, meet industry professionals eager to learn of the newest applications, and find potential collaborators. Project posters should be informative and compelling. You are encouraged to attend conference sessions and presentations, however, you are required to have one representative at your booth at all times to interact with and answer questions from attendees visiting your booth.
